PROBLEM STATEMENT OF MINI PROJECT
(Online education hub)

1) **What do we already know**?
   - we know that this type of website already exist but they cost high just to provide notes and question for practise and some time there will no lecture in few web app, even of YouTube lecture links will not be available.
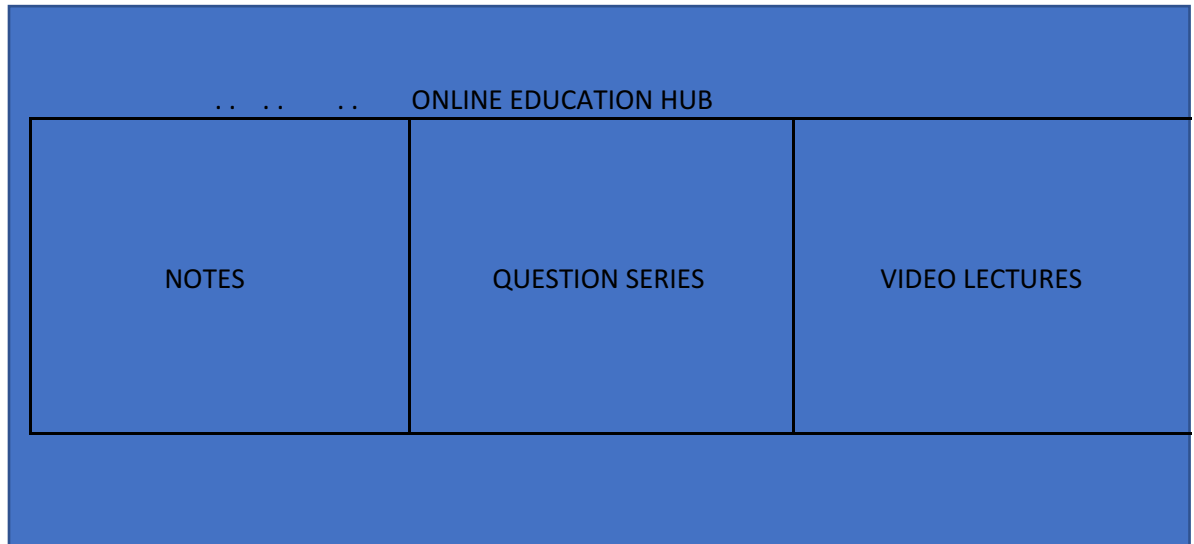

2) **We had also face this problems that's why this is the reason of our motivation to work on this project.**

3) **What do we need to know?**

   - Now students don't have to search 10 different website for free notes and questions for practice and also for YouTube lectures.

4) **What are features of our website for our users?**
   - There will be free notes /study materials for every semester
   - Questions of subjects will be available for practice
   - Best Video lecture from YouTube will be available for our users
   - For authentication purposes there will also login and signup option
   - Notes and questions series will be available in google drive links
   - User friendly graphical user interface
   - Every section will be in semester wise

ONLINE EDUCATION HUB		
NOTES	QUESTION SERIES	VIDEO LECTURES
